Issue	Name
Green building standards/low embodied carbon building, with funding/support; investment in green modular building capacity; proper infrastructure funding tied to green development standards (densification/transit/etc.)	Suzanne
Improved messaging: (Carbon tax is federal, but carbon tax vs. record oil profits?) Tying green improvements to improved quality of life - better air quality, etc.	Suzanne
Positive quality of life elements: e.g. support to reduce transit costs, help households afford heat pumps, not through Enbridge (including rentals), encourage/financially support native plantings throughout public spaces and for private households...	Suzanne
Cancel the 413 Bradford Bypass - Stop removing green space	Katherine
transphobia and school curriculums	Toby
gender affirming care access	Toby
decolonization and land back	Toby
international student wellbeing	Toby
student loans and debt cancellation	Toby
freedom of expression and police violence against protest	Toby
Two things stated here: #1 - Bring back carbon taxing everywhere - Ontario for sure!. People were getting the message about its importance and their need to pay for their choice to pollute! Thing #2 - Our governments (federal and provincial) must stop kicking the climate crisis can down the road and set reduction targets on carbon emissions that cannot be renege on by future party changes, only enhanced. Immediate creation of Green Development Standards by the Federal government, with provincial input AND their commitment to implementation RESULTS (KPIs), tied to provincial funding (i.e. the better your scores, the more access to federal funding). Green Development Standards must apply for ALL new and existing buildings renovations, tailored to regions, but adopted by all provinces ASAP.	Jennifer
Reducing plastic	Patricia
Stop the BRADFORD BYPASS and HWY 413 - these are not necessary and they will be a huge detriment to our environment and to humans.	Donna
reuse and adaptation of existing buildings - maintenance of provincially owned buildings - destruction of heritage landscapes and assets putting our environment at great risk to satisfy profit margins.	Deb
Focus on environmental protection and Truth and Reconciliation	Ed
Education should be STEAM - the A is the arts. Stop the move towards privatization.	Marilyn
Immigration support: Far too many newcomers are arriving and have no housing or support for essentials like food and clothing.	Linda
